Interiors are our passion

Owing to our experience and trust we have won among our satisfied customers, we may rank ourselves as a nationwide leader of interior design and finishing services. Our professional approach and attention to details of finishing work guarantee that our customers are offered unique design solutions for their apartments.

We entered the Polish market in 2006. Since the beginning of our business activity, we have carried out several thousands of finishing projects for individual customers, investment funds and numerous developers. Design services offered by our company cover both private apartments and houses as well as business premises.

We are at your disposal at the largest Polish cities: Warsaw, Tricity, Poznań, Wrocław, Kraków, Katowice, Łódź, and Kielce.

Our highly-qualified managerial staff, architects, designers, estimators and coordinators provide customers with professional and end-to-end approach to interior finishing using state-of-the-art design options and the most suitable finishing materials. Consequently, we are able to present you one of most comprehensive offers available on the Polish market.

Interior counts

Benefits from cooperation

**24-MONTH
GUARANTEE**
for services delivered.

PROVEN TEAMS
redNet employs only
proven teams that meet
our standards.

LOWER VAT
(8%) for finishing
materials at attractive
prices, including our
finishing services.

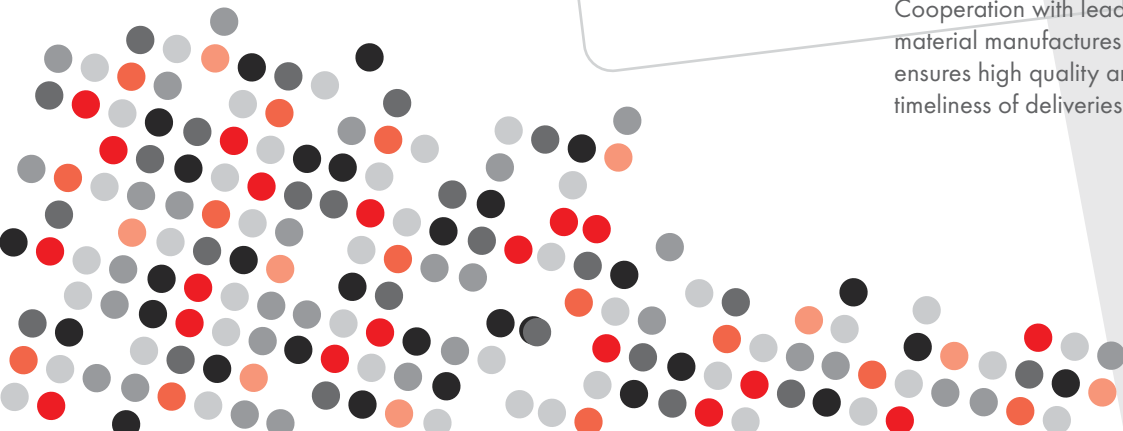

**THE BEST
MANUFACTURERS
OF MATERIALS**
Cooperation with leading
material manufactures
ensures high quality and
timeliness of deliveries.

DESIGN WORK
managed by interior
designers.

**ENGINEERING
SUPERVISION**
over work in progress until
the hand-over of a comple-
tely finished and defect-free
apartment.

TIME SAVINGS

As our customers may select finishing materials at a single place, they do not have to waste their time browsing through catalogues, visiting home improvement stores or searching the internet and magazines for ideas how to arrange their apartments.

STAGE I THE DESIGN

A designer prepares a design concept in the form of an offer for finishing work, including floor layout drawings and information on selected materials and their locations.

Additionally, 3D visualisations of bathrooms found in the apartment are arranged for the customers. In the meantime, our specialist inspect the apartment and take necessary measurements.

Once the whole design is accepted, an estimate for a selected premises is drawn up and presented to the customer for reviewing. The submitted estimate may be corrected by adding or removing individual components of finishing.

Apart from finishing work, built-in kitchen furniture, white goods, cupboards and lightening, our design services may also include any other material, e.g. wallpaper, photo-wallpaper and other wall panels, free-standing furniture, and all kinds of accessories.

STAGE II SIGNING A CONTRACT

A contract is entered into after accepting the design and cost estimate of finishing work, which, from this moment on, shall not be changed (however, it is possible to add mutually agreed amendments to the contract).

The work carried out is covered by a 24-month guarantee and statutory warranty as well as guarantees of manufacturers of materials used.

STAGE III IMPLEMENTATION

Finishing work shall be carried out in line with the rules of the trade and safety requirements. Activities of finishing teams are supervised by coordinators who hold building licences. The building site is always accessible to the customer, who may follow progress of work in his apartment.

STAGE IV COMPLETED APARTMENT

After the completion date specified for the work, commissioning of the apartment is arranged. If, within the commissioning procedure, any elements that need corrections are found, an appropriate report is drawn up and a date for removal of defects is specified. Finally, at the end of cooperation, a report is signed to confirm that the apartment has been handed over without any defects.

Stages of work

Assumptions for programs

GENERAL ASSUMPTIONS FOR COMMENCING WORK IN AN APARTMENT

- Gypsum plaster has been applied (in case of cement-and-lime plaster additional charge shall apply for the skimming of walls and ceilings).

- Jointless cement floors are in place.

- Air grates (or fans) are in place.

- Water and sewerage systems are concealed under plaster and available at final installation points of equipment.

- A central heating system is in place, i.e. pressure-tested and with installed wall-mounted radiators.

- An electrical system including electricity meters and electrical equipment (without luminaires) has been installed.

- A telecommunications system including electrical equipment is in place.

- The standard offer does not cover loggias, balconies and terraces.

- Indoor window sills are in place; if they are not, an additional charge for their installation will be applied.

- The offer pertains to the basic building layout drawing of the apartment.

Basic

The Basic program is aimed at both young people who are about to arrange their first apartment and all those who would like to finish their homes with good-quality materials but within a moderate budget. The program offers finishing materials from well-known manufacturers and allows one to create diverse, personalized interior design solutions. You chose materials, we take care of the rest! You are welcome to familiarize yourself with finishing materials offered under the Start for the Young program and the standard scope of work.

Silver

The Silver program is offered to people who would like to finish their home within a short time and for a reasonable price. This package is also recommended for those who want to finish their apartment and then offer it for rent. This option comprises high quality materials and professional workmanship, which means that you do not have to get involved in the supervising of finishing work.

Gold

The Gold package offers the possibility of implementing diverse, state-of-the-art interior design solutions. Original designs and high-quality materials allow one to arrange apartments in a modern and interesting way. Our experience resulted in the developing of innovative projects with demanding spatial solutions as well as various décor concepts.

Platinum

The package has been developed with the most demanding customers in mind. It is aimed at people who expect the top quality finishing materials and innovative, individual interior design concepts.

This standard will satisfy even the most demanding customers with sophisticated tastes. Our specialists and designers will assist you with professional advice along the whole interior design process until a fully satisfying result is achieved.

Examples of interiors

The offer includes the following work:

APPLYING PLASTERBOARD PANELS TO CEILINGS AND A CONCEALED LAVATORY BOWL SET AND CONSTRUCTING A BATHTUB EXTENSION IN A BATHROOM AND TOILET.

FINISHING OF WALLS:

- Skimming of walls and ceilings with a ready-made levelling compound, e.g. akrylputz (filling of grooves and cracks, smoothing of planes).
- Painting ceilings and walls with acrylic paint in shades 5 – 8 acc. to the Imparat colour chart (Kabe/Imparat paint).
- Wall tiles up to 2 m in a bathroom and toilet with white Imparat paint applied to walls above this height - max. wall tile dimensions: 60x60 cm.
- The offer does not include a strip of tiles between kitchen cupboards.
- External edges of tiles chamfered at 45°, without corner profiles.

FINISHING OF FLOORS:

- Floors with a system skirting board: living room, bedrooms, walk-in closet. Skirting board: Quickstep 58 mm
- Floor tiles: kitchen, anteroom, corridor, bathroom, toilet - max. tile dimensions: 60x60 cm
- Damp insulation of liquid-applied membrane in a bathroom and toilet.

DOOR CARPENTRY:

- Adjusting of door openings for installation of a rebated door.
- Fitting a rebated door with adjustable door frame, bathroom door with ventilation undercut, toilet door handle with a bathroom lock.
- Types of veneer/covering:
 - Porta Line – rebated door leaf, CPL HQ 0,2 or Porta Perfect 3D veneer, Porta System adjustable door frame for a rebated door
 - Porta Pasky – lacquered, Porta Decor or Porta Synchro 3D, adjustable Porta System door frame for rebated door
 - Porta Focus – Porta Decor or Porta Synchro 3D veneer, adjustable Porta System door frame for a rebated door
 - DRE Carla Top 10, 20, 30, 40 – T-CELL or T-3D veneer, matt door pane, adjustable door frame for rebated door
 - DRE Rivia Top 10, 40, 60, 80 – T-CELL or T-3D veneer, matt door pane, adjustable door frame for rebated door
 - DRE Piano 0, 3, 4, 5 - R-CELL or R-3D veneer, Decormat door pane, adjustable door frame for rebated door
 - DRE Auri 0, 1, 4, 5 - R-CELL or R-3D veneer, adjustable door frame for rebated door

FITTING A BATHROOM WITH:

- Sanitary fixtures and fittings as well as a washbasin with a semi-pedestal/Viega decorative (bottle-type) drain trap, wall-hung WC pan (the Viega/Kolo frame).
- Shower with shower tray with housing made of wall tiles.*
- Bathtub with housing made of wall tiles.*

Examples of interiors

The offer includes the following work:

APPLYING PLASTERBOARD PANELS TO CEILINGS AND CONCEALED LAVATORY BOWL SET AND CONSTRUCTING A BATHTUB EXTENSION IN A BATHROOM AND TOILET.

FINISHING OF WALLS:

- Skimming of walls and ceilings with a ready-made levelling compound, e.g. akrylputz (filling of grooves and cracks, smoothening of planes).
- Painting ceilings and walls with latex paint in shades 5-8 (acc. to the Imparat colour chart/ Kabe or Imparat paint).
- Wall tiles up to 2 m in a bathroom and toilet; above this height, plasterboard panels will be installed flush with the tiles and painted with white latex paint (Imparat/Kabe) – max. wall tile dimensions: . 60x60 cm.
- The offer does not include a strip of tiles between kitchen cupboards.
- External edges of tiles chamfered at 45°, without corner profiles.

FINISHING OF FLOORS:

- A levelling layer to cover differences in thickness between finishing layers.
- Floors with an MDF system skirting board: living room, bedrooms.
- Floor tiles: kitchen, anteroom, corridor (with skirting board of tiles in these rooms), bathroom, toilet – tile dimensions up to 60 x 60 cm.
- Damp insulation of liquid-applied membrane in a bathroom and toilet.

DOOR CARPENTRY:

- Adjusting of door openings for installation of a non-rebated door. (*The PORTA models: if the wall thickness is less than 9.5 cm, a rebated door should be installed; this does not apply to the Desire model, which is not available in the rebated version: if this is the case, you should order a rebated door from other line or cover the walls with plasterboard for an additional payment. **The INTERDOOR models: if the wall thickness is less than 8 cm, a rebated door shall be ordered).
- Fitting a rebated door with adjustable door frame, bathroom door with ventilation undercut, toilet door handle with a bathroom lock.
- Types of veneer/covering:
 - Porta Grande – acrylic UV paint (standard colours), door frames depending on the wall thickness: Porta System or Porta System Elegance

Platinum

- Porta Desire – acrylic UV paint (standard colours), Porta System Elegance door frames (these door models are without a rebated version; if walls thinner than 9.5 cm are present in the apartment, a rebated door of other type have to be installed or an additional payment shall be made for covering walls with plasterboard).
- Porta Concept Natura – Select natural veneer, door frames depending on the wall thickness: Porta System or Porta System Elegance
- Inter Door Alba – Natura and Dimoda veneer, door frame depending on the wall thickness: Antic or Vera
- Inter Door Derby – Natura, Dimoda or Glossa veneer, door frame depending on the wall thickness: Antic or Vera
- Inter Door Lukka – Natura, Dimoda or Glossa veneer, door frame depending on the wall thickness: Antic or Vera
- Inter Door flat-solid: Natura, Dimoda or Glossa veneer; Small Frame and Large Frame, Natura or Dimoda veneer (Glossa is not available in this case), door frame depending on the wall thickness: Antic or Vera

FITTING A BATHROOM WITH:

- Sanitary fixtures and fittings as well as a washbasin with a semi-pedestal/Viega decorative (bottle-type) drain trap , wall-hung WC pan (the Grohe frame), wall-hung bidet* .
- Shower with a shower tray with housing made of wall tiles or a shower tray made of brick with a spot water outlet.*
- Bathtub with housing made of wall tiles.*
