Ronson Development has won the main prize of the 10th edition of the Golden Website of Issuer contest in the “Foreign Companies Listed on Warsaw Stock Exchange (including NewConnect)” category, organized by the Polish Association of Listed Companies (SEG). A total of 889 websites of listed companies were evaluated, in five categories.

*- It is a great honour for us and a reason for pride - especially that two years ago we were the 3rd in the same category. Our efforts to make sure that our website is both the best showpiece of our company and a source of information for our investors have been rewarded. The Golden Website of Issuer is a prestigious contest where a great number of criteria are taken into account, and the evaluations are made by capital market authorities as well as by experts in various fields -Tomasz Łapiński, acting President of Ronson Development, has said.*

The purpose of the Golden Website of Issuer contest is to select and promote the best websites of listed companies which communicate with shareholders in a friendly and effective way. Similarly to the previous years, in the 10th edition of the contest, corporate websites were evaluated in three stages. The jury analysed, among others, communication with investors, including the use of modern methods and tools of communication, as well as websites' information content, innovation, usability and aesthetics of the websites.

As many as 889 companies listed on Warsaw Stock Exchange (including the NewConnect) were analysed in the 10th edition of the Golden Website of Issuer contest covering 5 categories. 10 companies were qualified to the 1st stage in the “Foreign Companies Listed on Warsaw Stock Exchange (including NewConnect)” category. Only three of them reached the finals.

The Jury's verdict was announced at the awards ceremony held on 7 June during the 9th Investor Relations Congress of the Polish Association of Listed Companies (SEG).
